UBONG EFFIONG ETOK

Cardiff, United Kingdom | +447831072256 | ubyetok@gmail.com
GitHub Portfolio: https://xzibitetok.github.io

PROFESSIONAL PROFILE

Data analyst and emerging data scientist with experience in business intelligence, operational reporting, and applied analytics. Completed the taught and project components of an MSc in Data Science at the University of South Wales and defended a dissertation on crime-pattern recognition and prediction using LAPD data. GitHub portfolio projects demonstrate practical work in Excel, Power BI, Python, R, SQL, machine learning, NLP, Hadoop MapReduce, and AWS.

TECHNICAL SKILLS

- **Data analysis**: Data cleaning, transformation, exploratory data analysis, statistical analysis, feature engineering, model evaluation
- **Programming & databases**: Python, R, SQL, Bash, MySQL, Oracle SQL Developer
- **Business intelligence**: Power BI, Excel, Tableau, Google Data Studio/Looker Studio, dashboard design, KPI reporting
- **Machine learning**: Classification, regression, clustering, PCA, predictive modelling, cross-validation, performance metrics
- **Text & big data**: NLP, text mining, sentiment and emotion analysis, LDA topic modelling, Hadoop, HDFS, YARN, MapReduce, Hadoop Streaming
- **Cloud technologies**: AWS S3, DynamoDB, EC2, AMI, VPC, Apache HTTP Server
- **Business & delivery**: Stakeholder communication, requirements analysis, technical documentation, cost-benefit analysis, risk assessment

EDUCATION

- **MSc (Hons) Data Science** @ University of South Wales, United Kingdom | Sep 2025 – Oct 2026
  MSc Dissertation: Developing a Crime Pattern Recognition and Prediction Model for the City of Los Angeles
- **BSc (Hons) Building** | University of Uyo, Nigeria | Sep 2012 - September 2018
  BSc Research Project: Assessment of Procurement Methods Adopted for the Development of Religious Building Projects in Akwa Ibom State
- **West African Senior School Certificate Examination** @ Bright Stars Model Secondary School, Nigeria | Dec 2010
- **First School Leaving Certificate** @ University Staff School, Nigeria | July 2003

LANGUAGE: English (Advanced)

SELECTED DATA SCIENCE & CLOUD PROJECTS

- **MSc Dissertation | Crime Pattern Recognition and Prediction — Los Angeles**
  Analyzed LAPD incident data from 2020–2023, using 875,087 coordinate-valid records for spatial analysis and a monthly division/crime-category forecasting panel. Applied DBSCAN and identified 315 spatial clusters; assessed hotspot recurrence. HistGradientBoosting achieved 14.18% WAPE on the locked 2023 test set versus 16.00% for the seasonal-naive benchmark. High-volume identification achieved 94.62% precision, recall and F1.

- **Breast Cancer Diagnosis | Machine Learning**
  Developed a reproducible workflow covering preprocessing, EDA, feature engineering, PCA, clustering and five supervised classifiers. Random Forest achieved 95.65% held-out test accuracy; SVM recorded 97.34% mean cross-validation accuracy.

- **Customer Review Intelligence | NLP & Text Mining**
  Analyzed a 23,486-review e-commerce dataset, using a reproducible sample for text mining, sentiment/emotion analysis, LDA topic modeling, and logistic regression. Identified fit and sizing as recurring review themes and assessed rating-related recommendation patterns.

- **EcoStream Energy | AWS Cloud Infrastructure & Data Analytics**
  Built an AWS workflow covering S3 telemetry storage, DynamoDB import and validation of five business queries, CSV result exports, a custom Node.js AMI, and an Apache-hosted EC2 web page within a configured VPC.

- **PageTurner Books | Linux, Bash & Hadoop Text Analytics**
  Created Bash-based directory structures and Python MapReduce workflows using Hadoop, HDFS, YARN and Hadoop Streaming. Ranked the ten most frequent words in “A Christmas Carol” and produced a sentence-count result of 10,941 for “Moby Dick or The Whale” txt datasets.

- **University Computing Department Database | SQL**
  Designed a relational database and ERD for courses, modules, tutors, and students; implemented tables, primary/foreign keys, sample records, and five SQL queries across related tables.

WORK EXPERIENCE

Part-time Work Experience during MSc study period | Sep 2025 – to date

Warehouse Assistant @ Rapid Personnel | UK | Sep 2025 – Jan 2026
Healthcare Support Worker @ Avon Healthcare Solutions | UK | Feb 2026 – Apr 2026
Healthcare Support Worker @ Safehands Recruitment | UK | Apr 2026 till date

BI Manager @ Micnous Service Nigeria Ltd, Nigeria | Jan 2022 – Aug 2025

- Collected, cleaned, and analyzed project data on schedules, costs, materials, equipment utilization, and labor to support operational and management decisions.
- Developed Excel and Power BI dashboards and KPI reports for project progress, budget variance, resource allocation and delay monitoring.
- Collaborated with engineers, project managers and site supervisors; contributed cost-benefit analyses and historical-data risk assessments.

Data Analyst @ Micnous Service Nigeria Ltd, Abuja, Nigeria | Jan 2020 – Dec 2021

- Organized daily site reports, material usage, labor hours, and equipment logs; prepared weekly summaries of progress, expenditure, and resource allocation.
- Helped identify data-quality gaps, improve data-entry processes and maintain accessible project records.

Lab Technologist (NYSC, part-time) | Omavic Synergy Consults Ltd, Delta, Nigeria | Dec 2018 – Oct 2019

- Conducted soil and construction-material tests, maintained accurate records and supported engineers with interpretation for foundation and subgrade assessments.

Building Engineer (Student IT, part-time) | MME UG Enviroventures Nigeria Ltd, Uyo, Nigeria | Jun 2015 – Jan 2016

- Supported design proposals, building-services supervision, and work-crew coordination while following site safety requirements.

PROFESSIONAL TRAININGS AND VIRTUAL INTERNSHIPS

- **Data Analysis Hands-On Virtual Training | Victoria Solutions, London | Oct 2025**
  Completed a four-week practical program covering SQL and Python data cleaning and transformation, Power BI and Tableau visualization, statistical analysis, and predictive modeling. Completed case studies and projects involving business analysis, stakeholder reporting, and dashboard development. Awarded a Certificate of Excellence.

- **Google Data Analytics Professional Certificate | Google | Coursera | April 2025**
  Completed an eight-course professional training program covering data preparation, cleaning, analysis, spreadsheets, SQL, Tableau, R, data visualization, and a capstone case study. Developed practical skills in processing, analyzing, and communicating data to support evidence-based decision-making.

- **Data Analytics Virtual Internship | JPMorgan Chase & Co. | Forage | Jan 2024**
  Gained practical exposure to data analytics in financial services, developing skills in data interpretation, analytical problem-solving, business intelligence, critical thinking, data-driven decision-making, and communicating analytical insights to support business decisions in banking.

ADDITIONAL CERTIFICATIONS

- Google Data Analytics Certification Course | Google | Coursera | April 2025
- Data Analytics and Visualization Job Simulation | Accenture | Forage | Jan 2024
- Data Analysis Hands-On Training Program | Victoria Solutions | Nov 2025
- Data Analysis with Microsoft Excel and Python | AQskill | Jul 2023
- Data Analytics and Visualization with Google Data Studio | AQskill | Mar 2023
- Data Analytics and Visualization with Power BI and Tableau | AQskill | Mar 2023
- Database Management with MySQL | AQskill | May 2023
- Google UX Design Certification Course | Google | Coursera | March 2025
